

Update on Frodsham Neighbourhood plan for FTC November 2021

As part of the development process the draft Neighbourhood Plan is required to be submitted to CWaC Planning for their comments. This was done earlier this year. CWaC decided that a Strategic Environmental Assessment (SEA) and a Habitats Regulation Assessment (HRA) was required. The Steering group obtained funds for these assessments which are currently being undertaken by external consultants AECOM. The final report is expected in early December. The findings will inform the second draft of the Plan.

In the meantime, the Steering group has been meeting to continue to review the draft Plan, in particular to update the policies in the light of the pandemic and the effects on commerce and health and wellbeing.

The Steering Group continues to engage with interested stakeholders, for example the A56 Project.
