28th October 2022

Dear Zoe,

Re: Frodsham Christmas lights 2022

Further to your recent request, we now have pleasure in submitting our formal quotation for the replacement tree lights as requested in your tender documents, details are as follows:

To supply each of the 3 identified deciduous trees with 4,000 no. 24v cool white LED mini LEDs, consisting of 40 sets of 100 LED lights on 10m inter-connectable rubber cables. These would be supplied with 6 no. 24v ACDC convertors and 2 no. 24v weatherproof drivers, for the sum of £1,929 per tree, **£5,787 total**

To attend site and strip out all of the old lights, for the sum of **£845 total**

To deliver the new lights and drivers to site and install by spiralling loosely around the main trunks and branches, connecting to existing power supplies and leaving lit on completion, for the sum of **£3,843 total**

All prices quoted are net excluding VAT.

It is assumed that the existing power supplies and control gear are all in full working order and comply to current electrical regulations.

We trust that this meets with your approval and await your further instructions in this matter.

Yours sincerely,

Martin Avill
Sales Director
