AGENDA ITEM 10b: Cemetery tree works

Quote 1

| | | | | | | |
|------|------------|---|---|---|---|---------------|
| T31 | SJ51097674 | Crack Willow <i>Salix sp'</i> | M | Height 20m. 30%dieback in crown, main stem leaning toward road. | Fell to ground level. | |
| T32 | SJ51097674 | Norway Maple (<i>A.platanoides</i>) | M | Height 7m. Three main stems with leaning growth form away from hedge beneath neighbouring horse chestnut. Squirrel damage throughout. | Fell to ground level. | |
| T33b | SJ51097674 | Horse Chestnut (<i>A.hippocastanum</i>) | M | Height 14m. In line of barbed wire fence, several failed limbs with visible brown rot in main stem at 7m. | Fell to ground level. | |
| T33a | SJ51097674 | Horse Chestnut (<i>A.hippocastanum</i>) | M | Height 14m. Significant rot in main stem on supporting side of lean, visible cavity of rot from ground to 2m. | Fell to ground level. | |
| T64 | SJ51027679 | Cherry (<i>Prunus sp'</i>) | M | Height 8m. 50% dieback in canopy, main stem is dead with visible cracking. | Fell to ground level. | |
| T14 | SJ51047675 | Holly (<i>Ilex sp</i>) | M | Height 8m. Multi stemmed from base with heavy ivy cover. | Remove ivy to reduce wind sail. | |
| T23 | SJ51097674 | Ash (<i>F.excelsior</i>) | M | Height 11m. Heavy ivy cover on main stem, possible ash dieback in canopy. | Remove ivy, reinspect for ash dieback in late summer. | |
| T25 | SJ51097674 | Ash (<i>F.excelsior</i>) | M | Height 11m. Heavy ivy cover on main stem. | Remove ivy to reduce wind sail. | |
| T34 | SJ51097674 | Downy Oak (<i>Quercus sp'</i>) | M | Height 21m. Heavy ivy cover on main stem. | Remove ivy to reduce mass loading and wind sail | |
| | | | | TOTAL COST | | £3,510 |
