11/08/2025/10	Xmas lights	To ask the Events Committee to consider potential uses of the lights outside of the Christmas period. To note the Clerk advised that operating the lights at any other time of year would require a non-metered supply to be arranged with the street lighting provider. This would necessitate advance notice and completion of a formal application process. The Town Clerk will seek, where possible, three quotations from lighting providers for the replacement of the current Church Street lighting with coloured LED lights, to be affixed to the existing catenary wires.	No decision was made at the Events Committee Meeting held on 2/09/2025 with regard to switching on the lights at any other time of the year other than Christmas.
